Education

- **National Institute of Technology(NIT), Silchar** — Silchar, Assam
  B.Tech in Mechanical Engineering; CGPA: 8.22 — *2024 – 2028*
- **Hindustani Kendriya Vidyalaya, Guwahati** — Guwahati, Assam
  AISSCE; Percentage: 91 — *2021 – 2023*
- **St. Stephen's School, Guwahati** — Silchar, Assam
  HSLC; Percentage: 93.33 — *2014 – 2020*

Experience

- **Grepin** — Gurgaon
  Flutter Developer — *Jan 2026 – Present*
  - **UI Bug Fixes**: Resolved UI-related bugs and layout issues in a Flutter-based production application, improving screen consistency and user experience.
  - **Codebase Familiarity**: Worked with existing UI components and design flows while understanding the app architecture and development standards.
- **Konect U** — Mumbai
  Flutter Developer — *Nov 2025 – Dec 2025*
  - **ChooseApp (Cab Aggregation Platform)**: Built and maintained a Flutter-based cab aggregation app integrating 10+ ride providers with real-time fare comparison, multi-trip booking, and production releases on (Android — iOS).
  - **Integrations & Stability**: Implemented WebView OAuth, PhonePe payment SDK, and Firebase Cloud Messaging; resolved production crashes and third-party issues while designing reusable UI components for dynamic booking flows.

Skills

- **Languages**: C, C++, Python, JavaScript, Dart
- **Frameworks & Libraries**: Flutter, React.js, Django, REST APIs
- **Databases & Cloud**: PostgreSQL, Firebase, Supabase, AWS
- **Robotics & Embedded**: ROS, OpenCV, Arduino, ESP32
- **Tools & Design**: Git, Docker, Render, Figma, Fusion 360

Projects

- **LeaseLens (SaaS Platform)**: Automated extraction of financial data and risk clauses from unstructured PDF lease agreements.
  - **Backend:** Django, Django REST Framework (DRF), Python 3.12
  - **Async Processing:** Celery Workers, Redis Broker
  - **Database:** PostgreSQL with pgvector for high-dimensional embeddings
  - **AI Integration:** Google Gemini API, LangChain (text splitting), semantic search
  - **Frontend:** React.js, TypeScript, Tailwind CSS, Framer Motion, Axios
  - **DevOps:** Docker, Docker Compose, AWS EC2 (Ubuntu), Git
- **EcoSnap (AI Audit Terminal)**: Real-time sustainability analysis and health risk detection using hybrid edge/cloud AI.
  - **Mobile & UI:** Flutter, Dart, Riverpod (Clean Arch), Custom Painters, fl_chart.
  - **AI Integration:** Google Gemini Pro, ML Kit (OCR/Barcode), Context-Aware Prompting.
  - **Backend:** Supabase (PostgreSQL, RLS, Storage Buckets), Cloud Sync.
  - **Key Features:** Bio-Check Engine (Personalized constraints), Gamification, Widget-to-Image Sharing.

Achievements

- Runner-up in the Robosoccer Tournament at Tecnoesis, November 2024
- Second Runner-up at the UI/UX Hackathon organized by ECS, December 2024
- Smart India Hackathon 2025: Selected at the institute level to represent NIT Silchar in the national competition
